

### **REMARKS**

This responds to the Office Action mailed on August 22, 2007. Claims 22 and 26 are amended. Claims 10, 12-14 and 26-31 are now pending in this application.

#### **§103 Rejection of the Claims**

Claims 10, 12-14, 26, 28 and 30-31 were rejected under 35 USC § 103(a) as being unpatentable over Jaggar (U.S. 5,506,976) in view of Stiles et al. (U.S. 5,515,518) in view of Yeh et al. (U.S. 5,742,804). Claims 27-29 were rejected under 35 USC § 103(a) as being unpatentable over Jaggar (U.S. 5,506,976) in view of Stiles et al. (U.S. 5,515,518) in view of Yeh et al. (U.S. 5,742,804) as applied to claims 26 and 28 above, and further in view of Papadopoulos (U.S. 5,412,799). Applicant respectfully traverses the rejection.

With regard to claim 10, among the differences, claim 10 recites “wherein the presbyopic target buffer comprises presbyopic target buffer records to map branch target addresses to subsequent branch target addresses.” Claim 26, as amended, recites similar limitations. The Office indicated that this limitation is disclosed by Jaggar at column 2, lines 30-38 and 30-48; column 3, lines 5-8 and column 6, lines 55-62. Applicant respectfully traverses. These sections of Jaggar relate to a cache memory. These section of Jaggar do not disclose or suggest a presbyopic target buffer.

Because cited references do not disclose each element of claims 10 and 26, Applicant respectfully submits that the rejection of claims 10 and 26 under 35 U.S.C. §103 has been overcome. Because the claims that depend from claims 10 and 26 depend from and further define claims 10 and 26, Applicant respectfully submits that the rejection of the dependent claims under 35 U.S.C. §103 has been overcome.

### **RESERVATION OF RIGHTS**

In the interest of clarity and brevity, Applicant may not have addressed every assertion made in the Office Action. Applicant’s silence regarding any such assertion does not constitute any admission or acquiescence. Applicant reserves all rights not exercised in connection with this response, such as the right to challenge or rebut any tacit or explicit characterization of any reference or of any of the present claims, the right to challenge or rebut any asserted factual or

legal basis of any of the rejections, the right to swear behind any cited reference such as provided under 37 C.F.R. § 1.131 or otherwise, or the right to assert co-ownership of any cited reference. Applicant does not admit that any of the cited references or any other references of record are relevant to the present claims, or that they constitute prior art. To the extent that any rejection or assertion is based upon the Examiner's personal knowledge, rather than any objective evidence of record as manifested by a cited prior art reference, Applicant timely objects to such reliance on Official Notice, and reserves all rights to request that the Examiner provide a reference or affidavit in support of such assertion, as required by MPEP § 2144.03. Applicant reserves all rights to pursue any cancelled claims in a subsequent patent application claiming the benefit of priority of the present patent application, and to request rejoinder of any withdrawn claim, as required by MPEP § 821.04.

### CONCLUSION

Applicants respectfully submit that the claims are in condition for allowance and notification to that effect is earnestly requested. The Examiner is invited to telephone Applicants' attorney at (612) 371-2103 to facilitate prosecution of this application.

If necessary, please charge any additional fees or credit overpayment to Deposit Account No. 19-0743.

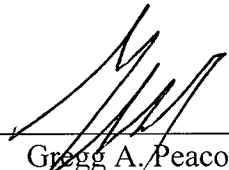

Respectfully submitted,
